AMAT - Infield Fly Short

Symbol	AMAT
Description	APPLIED MATLS INC
Pattern	Infield Fly Short
Sector	Technology
Position	Short
Entry	\$521.47
Provisional Stop	\$555.42
Technical Target	\$481.78
Reward / Risk	1.17:1
50% To Target	\$501.62
Shares @ Risk	29

Resistance 2	\$566.75
Resistance 1	\$544.44
Pivot	\$533.00
Support 1	\$510.69
Support 2	\$499.25

Candidate Score: 98/100

Risk/share: \$33.95 Position value: \$15,123

Target basis: fibonacci
61.8% advance retracement

Why it qualified

prior advance 23.6%; gap opened above prior high; gap-day close at 2% of range; bearish gap-day bar

Review flag gap overlaps prior range; source says pattern can still work; intervening support before 1R near \$511.21: daily swing low 2026-07-17, daily swing low 2026-08-06, next-day floor pivot S1, 38.2% advance retracement; intervening support before 1R near \$497.54: next-day floor pivot S2, 50% advance retracement; target has one technical confirmation; review intraday support before trading

Scanner candidate only - not an order. Target is support/Fibonacci-driven and passed the configured minimum R:R; the stop remains a provisional chart-level estimate and must be reviewed. Confirm borrow availability, spread, news, market/sector context, and next-day trigger behavior before trading.
