Symbol	FBDEMO
Description	FBDEMO Demonstration Corp
Pattern	Fast Ball Short
Sector	Demonstration
Position	Short
Entry	\$53.75
Provisional Stop	\$55.85
Technical Target	\$51.59
Reward / Risk	1.03:1
50% To Target	\$52.67
Shares @ Risk	476

Resistance 2	\$56.48
Resistance 1	\$55.32
Pivot	\$54.58
Support 1	\$53.42
Support 2	\$52.68

Candidate Score: 97/100

Risk/share: \$2.10 Position value: \$25,585

Target basis: fibonacci
227.2% precursor-range extension

Why it qualified

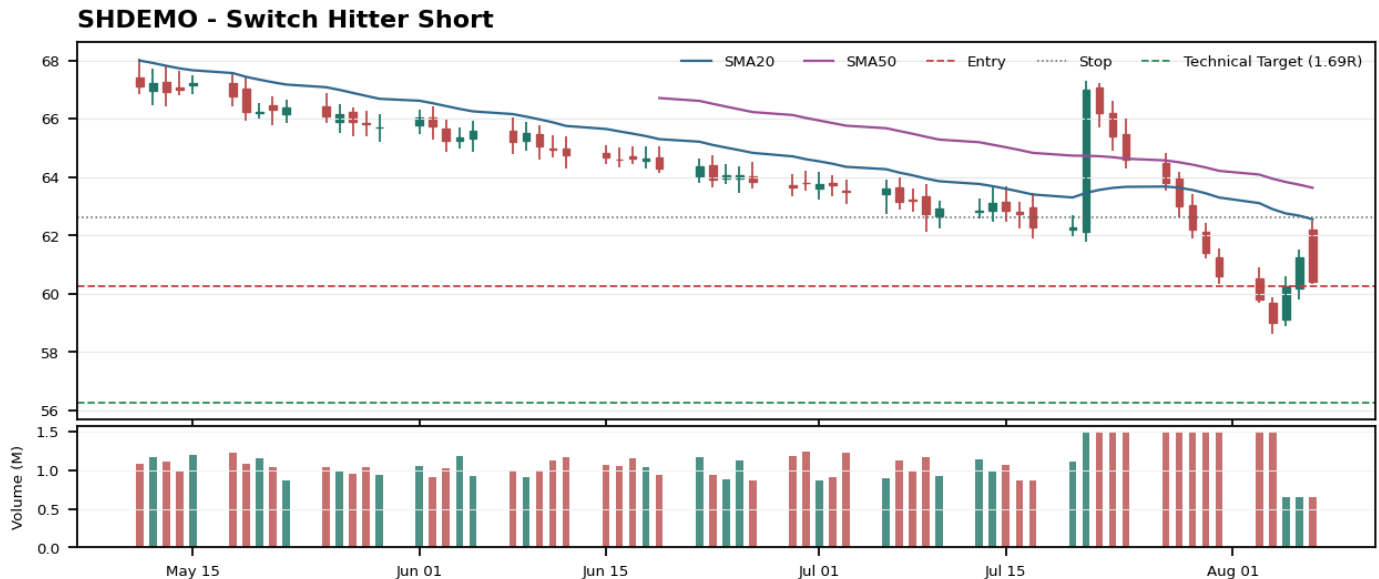

downtrend ADX 75.7; widest range of 10 sessions; volume 2.51x precursor average; close in bottom 16% of bar; downside break from precursor; 5-15 day consolidation precursor

Review flag target has one technical confirmation; review intraday support before trading

Scanner candidate only - not an order. Target is support/Fibonacci-driven and passed the configured minimum R:R; the stop remains a provisional chart-level estimate and must be reviewed. Confirm borrow availability, spread, news, market/sector context, and next-day trigger behavior before trading.
